

## Freedom for my thoughts – Antonia Prettenthaler

I'm lost in isolation  
It kills me from inside  
I have no inspiration  
'cause something just doesn't feel right  
It feels like I'm completely alone  
Just an imitation of my own  
So people tell me what's going on  
In this world we call our home

In my imagination we're all living together in peace  
All the irritation is gone

I need freedom for my thoughts  
So my soul can be free  
With freedom for the people  
We all can live together in peace

I need an invitation  
To help me get outside  
Some social integration  
Could make me feel allright  
Is somewhere out there a safe place to be  
To get out of all the misery  
I need someone to show me around  
On this planet full of mysteries

In my imagination I found the friendship I need  
A friend who helps me in trouble to free me

I need freedom for my thoughts  
So my soul can be free  
With freedom for the people  
We all can live together in peace

The illumination made me see  
It's all about the time  
And my intuition tells me  
That I'm gonna be just fine  
Now with zero hesitation I know  
where I can find my happiness  
I get all the joy I need in my life from  
Peaceful people and nothing less

I use my imagination to see how peaceful we'll be  
I'm sure the future will help me to feel free

I need freedom for my thoughts  
So my soul can be free  
With freedom for the people  
We all can live together in peace
