

Songtext (Poor or rich)

Akkorde: Am Em G D

1. Strophe (Perspektive des Kindes)

We are children, people under eighteen.

We are standalone people, even when adults don't agree.

We can make our own decisions and don't always need support.

Refrain (Allgemein)

Whether poor or rich, we are all the same.

We should respect children, show them understanding.

Even Kids have their privacy, and this should be respected by parents.

Whether poor or rich, we are all the same and we should let them have their own opinions.

2. Strophe (Besorgte Mutter/Mensch)

Every Child should have a roof over their head.

Every Child should get help if they need them.

Every Child should have a right general care.

Refrain (Allgemein)

Whether poor or rich, we are all the same.

We should respect children, show them understanding.

Even Kids have their privacy and this should be respected by parents.

Whether poor or rich, we are all the same and we should let them have their own opinion.

Bridge (Allgemein)

Nobody knows, what's going on in those souls.

They deserve a lot more than they have.
